

CARBON

REDUCTION
GRANT

£400
GRANT

Reduce your home heating
carbon emissions by up to **50%***

IN PARTNERSHIP WITH:

*Based on a 28% differential in carbon emissions between burning oil and natural gas and assuming up to a further 30% saving through heating system efficiencies.

Eligibility Criteria

-  Your domestic property must be within the Phoenix licence area and connecting to the network for the first time.
-  You are a homeowner, permanently residing at the connecting address.
-  The total household annual income must be less than £55,000.
-  You must employ a Gas Safe registered installer who is also registered with Phoenix to offer this grant.
-  This grant cannot be used in conjunction with any government supported central heating grant e.g. Affordable Warmth or NISEP.

How to Apply for the Carbon Reduction Grant

1. Speak with your Energy Advisor and complete your Gas Connection Application form.
2. Before your gas meter is installed, contact Action Renewables to verify your household income and obtain your Income Eligibility Authorisation Code. You will need your Gas Connection Application number to complete your Income Eligibility Application.
3. Visit phoenixenergyni.com/offers and fill out a Carbon Reduction Grant Claim Form. Submit all relevant documentation to Phoenix within 63 days of your gas meter being installed.
